## Terms & Conditions of This Contract

This contract shall consist of this quotation and your acceptance without variation. Our quotation is provided on the basis that to the best of our knowledge, your door's structure is sound and suitable for the installation of an AUTOSLIDE Operator.

A 20% Deposit is required to accept this quotation and so invoke a contract. We offer a 7 day cooling off period after which time the deposit becomes non-refundable, in the event of cancellation by you.

If full payment is not received upon installation, the contract may be deemed cancelled.

You have the right to cancel this contract. Should you choose to do this within your 7-day cooling off period then no costs will apply and any deposit paid will be refunded in full. However, if you have requested the supply and installation of the goods within the 7-day cooling off period, an administration charge of £125+vat will be deducted from your Deposit and any remainder refunded in full.

We have the right to cancel this contract at any time and in doing so will refund your Deposit in full.

If, through no fault of Arxcis, final adjustments cannot be made when installation is otherwise complete, payment shall nevertheless become due as though such final adjustments had been made. These adjustments to be completed within 10-15 working days.

Uninterrupted access is required for our installation. If access is not available on the agreed date and at the agreed time, the order will be deemed cancelled.

Under no circumstances shall we be liable for consequential damage or loss of any nature caused, or contributed to, by any defect or failure (whether partial or complete) of any part, material or design which was not wholly manufactured by us and which we could not reasonably have been expected both to inspect and exhaustively test. We shall not be responsible after delivery for damage to materials supplied or to work done by us occasioned by any cause not wholly within our control. We shall not be liable for any modifications made to a door system without our full knowledge and written consent. Any such change would invalidate our guarantee, and may endanger the user.

Should you need to place your order on hold prior to installation, you may do so by advising us in writing. The maximum amount of time that an order may be left on hold is six calendar months after which time the order will be deemed cancelled.

This contract shall be governed by and construed in accordance with English law.

If any condition, clause or provision of this contract not being of a fundamental nature is held to be illegal or unenforceable, the validity or enforceability of the remainder of the contract shall not be affected thereby.

Nothing in this Agreement will operate to reduce or take away your statutory rights.

If we are required to remove or relocate the Operator or any part of the system, we will not be held responsible for making good to any redundant holes or damage to finishes.

We will always attempt to install with reasonable care and skill and we will always attempt to install at a time arranged with you. When we make arrangements for installation we are as careful as possible to inform you of accurate dates but we are not in a position to guarantee these dates. Failure by us to install at a pre-arranged date will not give you the right to cancel the order or to claim damages from us.
